 HOUSEWRAP  
 HOUSEWRAP SEAMING TAPE  
 TEMPORARY ROOF PROTECTION

# WE HAVE YOU COVERED

REX™ StormRoof Wrap

Alpha Pro Tech Engineered Products, Inc. is pleased to offer the simple solution of temporary roof protection after a storm. REX™ StormRoof Wrap offers many advantages over the old blue tarps when temporary roof protection is needed.

- Translucent for easy roof inspection – never have to pull back for insurance inspections of damage
- No awkward unfolding of tarps – never have to unveil or re-position a blue tarp on the roof. No awkward work on the roof
- 9' & 10' wide rolls – easy to install in roll form by just unrolling across the roof in either a 9' wide or 10' wide roll by 300 lineal feet. Carry one roll on a roof and complete the job
- 6 months UV exposure – can be left on the roof exposed for up to 6 months with no fear of leaks or damage
- Custom printing available – can be custom printed with the contractor name or contact information. Acts as a billboard on the roof with a one pallet minimum

## REX™ StormRoof Wrap
