Critical Cover® Coverall® Face Shields

Total Facial Splash Protection for. . .

- Industrial
- Laboratory
- General Safety
- Healthcare
- Dental
- Wherever protection from splashing or splatter is required

The Clear Benefits of Total Facial Splash Protection

- Double sided anti-fog virtually eliminates fogging
- Foam headband for protection and comfort
- Lightweight 7 mil for ultimate comfort
- Fast, easy to don
- Non-distorting, transparent shield; excellent peripheral vision and protection

2807
Full Face Shield
with Comfort Band

2808
Half Face Shield
with Comfort Band

When you need total facial splash protection choose the Coverall® Face Shield. The face shield's wrap-around design provides the wearer with great peripheral vision while acting as a protective shield against non-hazardous liquid splash and light particles in a lab or controlled environment. The Coverall Face Shield is not ANSI Z87 rated for eye protection. You can wear the lightweight shield comfortably for long periods and it fits easily over prescription glasses or protective eyewear.

A double-sided anti-fog coating reduces the possibility of fogging in high humidity environments. For safe working conditions, the face shield is low distorting and 100% optically clear while a soft polyurethane foam headband securely positions the device on the wearer.

Full face shield or half face shield design with an adjustable Velcro® headband or latex-free elastic Comfort headband. Individually packaged.

Critical Cover[®] Coverall[®] Face Shields

Full Face Shields
