GENPRO®

Disposable Apparel

Protecting People, Products and Environments

Basic Protection for Non-Hazardous Environments

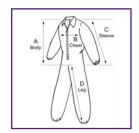

Designed for non-hazardous, general purpose environments and with exceptional breathability and moderate barrier protection, GenPro garments are ideal for your personnel as well as for visitors to your facility. The lightweight, durable material lets you stay clean and comfortable all day while providing a limited barrier to particulates and contamination. It is the perfect solution for protecting your clothes while offering comfort and breathability.

Our GenPro shoe covers are lightweight and provide a moderate barrier to fluids, particulates and contamination. Our GenPro bouffants and beard covers with a non-binding, elastic opening for a perfect and secure fit, provide the appropriate level of protection required to contain particles resulting from the head area.

Sizing Chart

Serged Seams

This seam is produced when the threads are interlocked around the material edges for a strong stress-resistant seam.

Layered Packaging Design to Prevent Contamination from Entering Your Controlled Environment

- Packaged in a primary bag, carton liner and outer corrugated carton to prevent cross contamination and contamination migration from one environment to another
- · All garments are precision folded and stacked within the primary bag to permit efficient storage with or without bins
- · Primary bag placed in clear carton liner that is twisted and taped closed
- · All open seams on shipping containers are tape-sealed for additional protection from possible contamination
- · Four-sided carton labeling allows easy product identification and inventory management
