

# REX™ STORMCOVER

## Alpha ProTech has you covered with Temporary Roof Protection

When a home experiences roof damage from severe storms, hail, or high winds, it's important to act quickly to prevent further interior damage. REX™ StormCover Temporary Roof Protection offers a reliable temporary solution by covering the damaged areas and shielding the home from water and weather exposure. It stays in place until a contractor can perform a proper inspection or until insurance claim approval allows for permanent repairs.

REX™ StormCover comes in 10'x300' rolls for fast and convenient tarps on the go. No more awkward unfolding of blue tarps.

### Key Features:

- Translucent design makes for easy roof inspection while protected
- 300' length roll ensures that you can protect the entire home quickly
- 10' height available for maximum coverage per course
- 6 months of UV exposure, without the fear of leaks or further damage
- Free custom print options to turn every roof into a billboard for free

### When To Use REX™ StormCover:

- After storm damage
- Leak emergencies
- Fallen debris
- While waiting for repairs
- During roof work
